من خلال

• توفرنا خدمات تجارية بارزة مصممة من أجل مصلحة العملاء بناءً على نصائح التخصيص المتميزة.
• المراجعة الدورية لعملائنا، بما في ذلك المراقبة والاحترافية في عملنا، والالتزام الكامل بخصوصية العملاء والمبادرات التحفيزية.
• خدمة العملاء المتميزة، التي تركز على تقديم الدعم الاستشاري المناسب، عبر البريد الإلكتروني والقناة الرقمية.

بصفة عامة، نحن نعمل على تقديم تجربة تجارية متميزة والترقية المستمر في خدماتنا اليومية.

ما دورنا

• ضمان تقديم خدمات مخصصة ودقيقة، بحيث تكون ملائمة للعملاء وتساهم في تحقيق امكانياتهم المالية العالية.
• دعم عملائنا بطرق عديدة، بما في ذلك الدعم الفنى والاستشارات المالية، مما يضمن تحقيق أهدافهم المالية.
• تلبية احتياجات عملائنا من خلال تقديم منتجات وخدمات مخصصة، بما في ذلك التأمين المالي والخدمات الاستثمارية.

نتطلع إلى تقديم خدماتنا المتميزة بناءً على احتياجات عملائنا وتعزيز من خلال توفير خدمة متميزة.

وهو في إشارات تمادى هذه الملاحظة. أكثر مما يمكن أن يفعله العملاء.

ساهم عنا من أجل مستقبل صحي أفضل.

WHAT IS QATAR BIOPARK?

● Qatar Biobank is a center within Qatar Foundation’s Biomedical Research Institute. It has been created by Qatar Foundation in partnership with the Supreme Council of Health and working with Hamad Medical Corporation, and with the expert support of scientists from Imperial College London, to enable medical research in health issues that prevail in Qatar.

● Through its collection of samples and information on health and lifestyle from large numbers of members of the population of Qatar, Qatar Biobank will provide vital health research generate for researchers in Qatar, the region and the world.

Qatar Biobank is a globally unique resource that will raise Qatar’s profile in biomedical research regionally and globally.

HOW WILL QATAR BIOPARK BENEFIT QATAR’S COMMUNITIES?

● An Qatar’s communities contribute personal information and biological samples about their health and lifestyle, Qatar Biobank will become a valuable national resource for Qatar’s health. Information and samples contributed by participants will help researchers understand how lifestyle, environment and genes affect health locally. This knowledge will help develop medical treatments and disease prevention for the health of Qatar’s children and grandchildren.

● All new medical treatments have been developed through the study of Western populations and there has been a lack of large-scale research based on populations in Qatar and the region. As the most ambitious biobank in the region, Qatar Biobank will play a vital role in helping to prevent and improve treatment of diseases that affect our communities. Qatar Biobank will be a driving force in developing research into the interactions for health and lifestyle conditions, such as heart diseases, diabetes and cancer, which may have unique health challenges for the Qatar population, where around 17 percent of adult population suffers from type 2 diabetes.

● The health information and samples collected by Qatar Biobank on the population of Qatar will allow researchers to better understand diseases that affect our communities and will lead to better healthcare and personalized medicines.

A HEALTHIER FUTURE STARTS WITH YOU.

WHAT DO WE DO?

● Qatar Biobank will serve as a platform and driver of health research through recruiting large numbers of the Qatar population to contribute biological samples and information about their health and lifestyle.

“Qatar Biobank is a scientific and altruistic partnership between the research community and the people of Qatar to build a better, healthier future for generations to come.”

Dr. Abdalrahman Alnaser
Director of Biobank, Qatar Biobank Project

HOW CAN YOU GET INVOLVED?

● Anybody who is an adult (at least 18 years) and either a Qatar national or long-term resident living in Qatar for at least 15 years can contribute to Qatar Biobank by offering around 3 hours of their time to give samples of urine, saliva and blood (about 50 milliliters), or around the same volume as a pocket-sized travel water purifier, for a range of measurements, such as height, weight, grip strength, blood pressure, body composition, heart and lung function. Finally, participants will be asked to complete a questionnaire and provide some overall feedback on their experience at the Qatar Biobank center.

To become a contributor to Qatar’s healthier future, please call 2741666 or write to biobank@biobank.org.qa.
